probID:_____

Tasks

Introduction

Time: 5 min

1. Log in with your ProbID*(you can find it in the top right corner of this sheet)*
2. Create a Storyboard
3. Create one frame similar to the following:

Tip:

4. Regenerate once
5. Ask the conductor if you have any questions
6. Leave the task through the “Continue to Tasks”-Button

Tip:

- Try to have the face in the picture. If the AI generates a completely different pose it is probably because it couldn't recognise a face
- You can press the space bar or the button in the app to shoot a picture
- Use short descriptive words for the background e.g.: *dense jungle foliage, tropical leaves*
  Avoid mentioning the character in this prompt e.g.: ~~*Dave is… or the character is …*~~
- It takes up to 10s to generate an image

Task 1

Time: 8 min
Specifications: Plot, Frames, Camera settings

Below you will be given a script with the first scene of a movie. The scene contains 2 Frames. Read the script carefully and think about how to visualize them. You will additionally be given instructions for the camera setting for each frame.

Skript

Scene 1:

Frame 1[full shot]
DAVE runs fast. The city skyline passes in the background.

Frame 2[medium closeup]
DAVE looks ahead. His left arm is stretched out toward the camera. The other is by his side. You can see the street he is running on in the background.

probID:_____

Task 2

Time: 10 min
Specifications: Plot

Below you will be given a script with the second scene of a movie. Read the script carefully and think about how to visualize it. You can get creative with the camera settings and amount of frames.

Skript

Scene 2:
DAVE jumps up in the sky, lifting off the ground. The city skyline in the background. Once he is up in the sky he pulls his knees to his chest and does a backflip in the air.

probID:_____

Task 3

Time: 12 min
Specifications: None

In this last task you are free to experiment. The goal is for you to create the third scene of the movie. You can use all tools and props that are provided to you. Don't be shy!
